Due to regularly changing environmental and weather conditions in rural Australia, Boomerang Campers requires You to disclose the area of use and route of travel for the entire duration of your vehicle hire prior to payment of booking. This requirement is in the interest of protecting the safety of Our customers and Our property. Should the proposed area of use or route be denied travel for any reason by Boomerang, You must not operate the vehicle in the area or route that has been declared off-limits. Failure to comply will result in loss of Bond and full liability for any damages that may result.

GPS TRACKING

Boomerang uses GPS systems to track and monitor the vehicle data including, but not limited to: speed, time, driver behaviour, location and routes of travel. At any time, The Company may, at its sole discretion, prepare a GPS Driver Behaviour Report ("DBR") with respect to the rented vehicle indicating the aforementioned matters in addition to other matters The Company at its discretion considers necessary.

In the event the DBR evidences that while under your care:

- a) the rented vehicle was driven in excess of legal speed limits.
- b) at the reasonable assessment of The Company, driver behaviour has caused damage and/or excessive wear and tear to the rented vehicle
- c) the rented vehicle has been driven on a road or track which has not been open, safe for passage and/or permitted by Boomerang

You acknowledge that such acts have violated these Terms and Conditions and in violating these Terms, Boomerang is no longer required to refund Your Bond deposit (detailed further in this document). You are fully liable for all damage and/or excessive wear and tear to the vehicle (either seen or unseen) believed to have been caused by acts detailed on the DBR. With respect to this damage and/or excessive wear and tear, you hereby irrevocably authorise The Company, at its sole discretion, to deduct from Your Bond a genuine pre-estimate of the loss that The Company will suffer in relation to this damage and/or excessive wear and tear. This clause (GPS TRACKING) does not limit the rights and/or remedies available to The Company pursuant to these Terms and Conditions, at law or in equity.

Vehicles are to be driven on Australian Mainland Only (no Islands)

COVID 19 Cancellations

Is Boomerang Campers offering a refund if customer's booking is affected by COVID-19 Boarder closures or travel Restrictions?

Although a refund is not available on deposits, important updates have been made due to the current climate and the need for more flexibility in the marketplace.

Customers with pre-paid rentals booked prior to March 13th 2020 can cancel their reservation for no cancelation fee and transfer their balance for use towards a future booking to be used within 24 months. Customers who have made a reservation that is affected by government travel restrictions can also cancel the reservation at any time and rebook to a later date, free of charge. The customer can also transfer the booking credit to another person.

Customers with COVID-19 and vehicles

If a customer has contracted COVID-19 and must return the vehicle earlier than planned.

The customer should inform Boomerang Campers ASAP if they've tested positive for COVID-19 since renting a vehicle. In this event, Boomerang Campers follows specific measures in place to decontaminate the vehicle.

Boomerang Campers staff will advise customers of what to do when returning a vehicle.

If a customer has returned a vehicle earlier than planned, they will not be refunded for the days not used they will be issued a credit for a future booking to be used within 24 Months. This credit is also transferable to another person.

What happens if a customer self-isolates or is quarantined and cannot return the car?

Boomerang Campers and all people should avoid contact with the car and the car keys for 12 hours. We will ask the customer to place the keys in a sealed envelope and we will arrange to pick up the vehicle from the customer's address after this time.

In situations like these, the customer should speak directly with Boomerang Campers to determine the next course of action.

Please note, the customer is responsible for the vehicle until it has been returned or retrieved. They should ensure it is parked in a safe environment and not violating road rules.

As per rental terms and conditions, failure to notify us about returning a vehicle will result in customers being charged the full amount and expenses incurred until the vehicle is returned.

What are the steps in place for decontaminating vehicles? / What happens if a customer with COVID-19 has used the vehicle?

In response to COVID-19, Boomerang Campers is thoroughly cleaning and sanitising vehicles after every rental.

If Boomerang Campers knows a customer with COVID-19 has used a vehicle, the following process for cleaning is observed to protect staff and customers. For this process, Boomerang Campers has utilised the expertise of Australian and state health organisations.

The car is isolated and not moved or touched for 60+ hrs. Health authorities claim the virus will die within 1-8hrs subject to UV exposure

Keys are secured and then sanitized before car is moved

The car is recovered by Boomerang Campers staff wearing applicable protective equipment

The car is then disinfected via a specialised clean

The car is then put through a secondary clean and sanitisation process

What happens if a customer finds themselves in a confinement area and cannot return the car?

The customer should avoid contact with the car and the car keys and contact us. We will arrange for the car to be picked up once the confinement has been lifted, or the customer can choose to return the vehicle to us at that stage.

Cleaning and preventive measure

What measures do you have in place to prevent COVID-19?

It is the mission of Boomerang Campers to maintain high standards for safety and cleanliness that customers expect. In addition to practicing preventative measures to reduce the spread of germs within our facilities, all our vehicles go through a rigorous, multi-step cleaning process for each rental. We are remaining vigilant in upholding these practices and are taking additional precautions as recommended by the Centres for Disease Control & Prevention (CDC), World Health Organization (WHO) and the Australian Government to minimise the risk to our customers and employees.

We would advise all customers travelling to undertake their own information gathering and to consider their personal circumstances before deciding to travel.

Are you cleaning your cars any differently? Have any of our operational protocols changed?

We have a high standard for cleanliness and safety and are committed to upholding those standards with our rigorous, multi-step vehicle-cleaning process. Enhanced cleaning protocols have been put in place as a result of COVID-19. These protocols apply to our cars, customer areas and are based on current local health and government guidelines.

Additionally, we are advising our employees to take simple hygiene steps to help prevent the spread of the virus, including regular hand washing and the use of alcohol-based hand sanitizer, which we are providing at our locations.

We are also recommending that employees avoid handshakes or making any other welcoming gestures that require personal touch, and like always, they should not come to work if they feel unwell. They should stay at home and contact their local health provider. This is also the advice if they have recently been to a high-risk area or have been in contact with someone who has.

How is Boomerang Campers cleaning vehicles to protect customers and employees?

Vehicles are cleaned and now sanitised after every rental and Boomerang Campers has put in place extra cleaning measures for the protection of our customers and staff.

In addition to our standard cleaning service, we are disinfecting the following hard surfaces:

- Door handles (inside and out)
- Steering wheel
- Key area
- Handbrake
- Seat belt fittings/clips
- Entire console area
- Any hard surface areas previously cleaned will now be cleaned with disinfectant

Maintenance teams have also been trained in the new procedures and have also been instructed to sanitise and wash their hands before and after each service of our vehicles.

In addition to vehicles, Boomerang Campers is actively promoting to employees and customers the importance of good hand hygiene to minimise the spread of the disease.

Do we sanitise every vehicle?

Yes. In addition, we have a high standard for cleanliness and safety, and are committed to upholding those standards with our rigorous, multi-step vehicle-cleaning process. Enhanced cleaning protocols have been put in place as a result

of COVID-19. These protocols apply to our cars, customer areas and buses, and are based on current local health and government guidelines.

Additionally, if we know for certain a vehicle was used by a driver/passenger confirmed positive for COVID-19, then a full decontamination occurs, and the vehicle is sanitised.

INSURANCE COVERAGE AND SECURITY BOND

PERSONAL INJURY Boomerang's vehicles all have third party insurance coverage. It is likely any other vehicle involved in an accident also has third party insurance coverage. In the event of an accident (depending on the circumstances), You may be entitled to claim for personal injury against the third-party insurance of the person responsible for the accident. The scope of the insurance may differ from State to State. Boomerang Campers strongly recommends all passengers obtain their own personal travel insurance.

BOND

For security and liability purposes, a valid credit card must be provided for Boomerang to keep on-file for use in the event of damages in breach of contract exceeding the amount of the Bond. The credit card holder must be present and able to sign for the Bond upon vehicle collection. The credit card holder(s) and driver(s) are jointly and severally liable for any damage to the rental vehicle.

Only a bank transfer (14 days before booking date) or cash may be used to provide a Bond. The Bond is returned only after the rented vehicle is returned to the designated return location and full service of vehicle has been completed. You are held liable for the vehicle and these terms and conditions until it has been checked in by Us or our Nominated Agent during office hours. In the event a vehicle is returned outside of office hours, you are responsible for the vehicle until We arrive to inspect the vehicle. The vehicle must be returned with its fuel tank(s) full and all other terms of this document having been complied with in order for the Bond to be returned. Boomerang always conducts a full vehicle service and safety inspection after each rental returns to ensure the safety and satisfaction of its customers. Should damage (cosmetic or mechanical) to the vehicle be present upon return or during posthire service and inspection, the Bond will be used to cover the cost of repairs up to the amount of The Renter's liability. However, if the terms of this rental contract are breached and the Bond is insufficient to cover the damages, any other costs will apply to You. The Bond covers one accident only. In the event of an accident or uncovered expense, the Bond or additional insurance payment will be collected again for the rental period remaining.

By signing this document, I hereby unconditionally and irrevocably authorize Boomerang Campers to charge the credit card(s) provided for the Bond in order to pay for damage or infringements occurring during the rental period that is fair and reasonable or that properly needs to be paid according to this contract or as a result of any breach or non-performance by Me of the terms of this contract (e.g. damages, vehicle cleaning, equipment replacement, etc.). You as a Hirer or joint Hirer are wholly responsible during and after your hire to have Sufficient Funds on your Credit Card to cover the Rental Agreement and Security Bond. If you provide a Credit Card with insufficient funds or invalid details, you will be committing a fraud and forfeiting Comprehensive Insurance Coverage.

INCLUDED COVERAGE AND STANDARD BOND

In the event of an incident in which You are not at fault, our insurance will cover all costs beyond \$5,000 (per claim). This \$5,000 insurance excess liability is passed on to You and is guaranteed to Us in the form of a Bond. You are not charged unless an incident with costs occurs. In the event the Bond needs to be used, the entire deposit (\$5,000) will be charged and held until all costs are settled. Any Bond deposit remaining after all costs have been paid will be refunded to You.
